

Hugo Dubouis - LP CIASIE

# Sandwich course presentation

Tutor : Patrick Nourissier

company supervisor: Quentin Lesdalons

# Summary

- I. Introducing the company
- II. The web development hub - Developing with Symfony
- III. Other tasks within the company

# Introducing the company

- Founded in 1997
- Located in Ludres
- First specialized in design object
- Now 3 different hub:
  - Design object
  - Communication
  - Web development
- Company composed of 9 employees

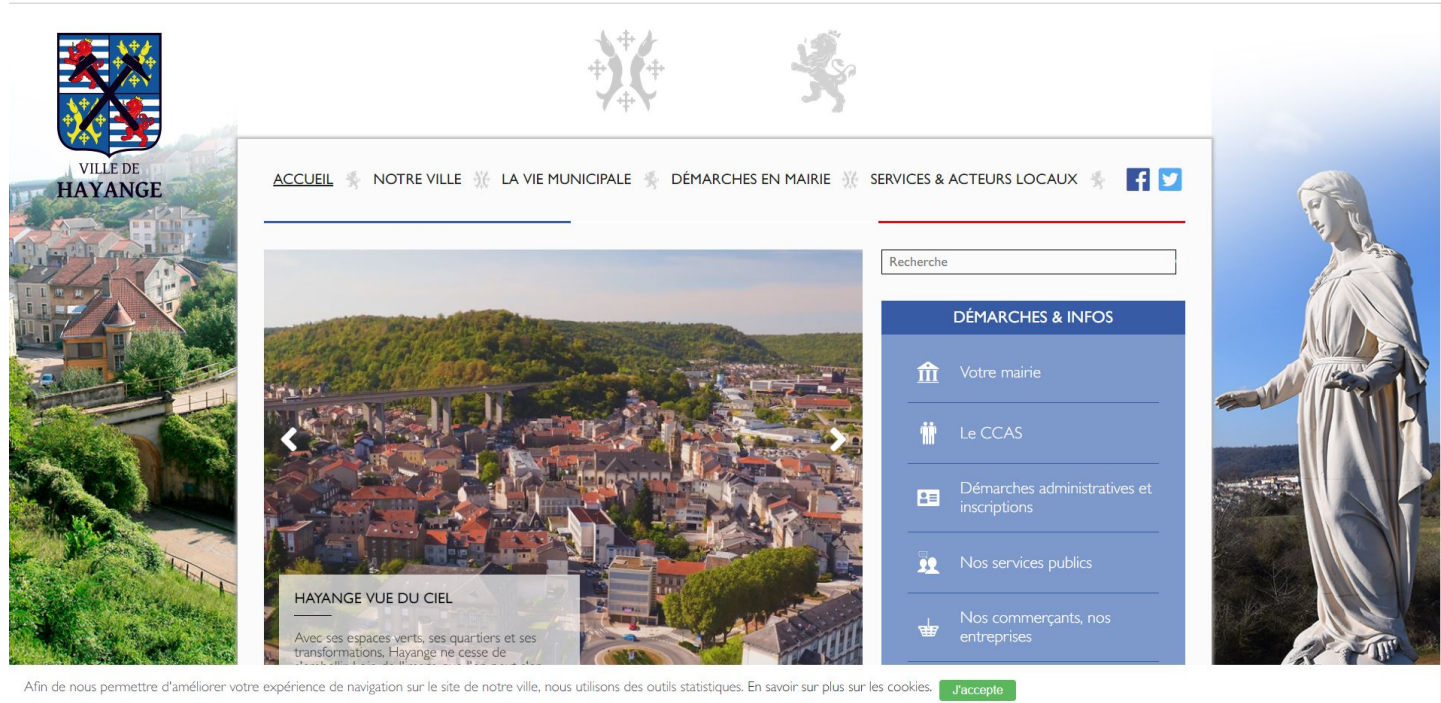

## II. The web developpement hub

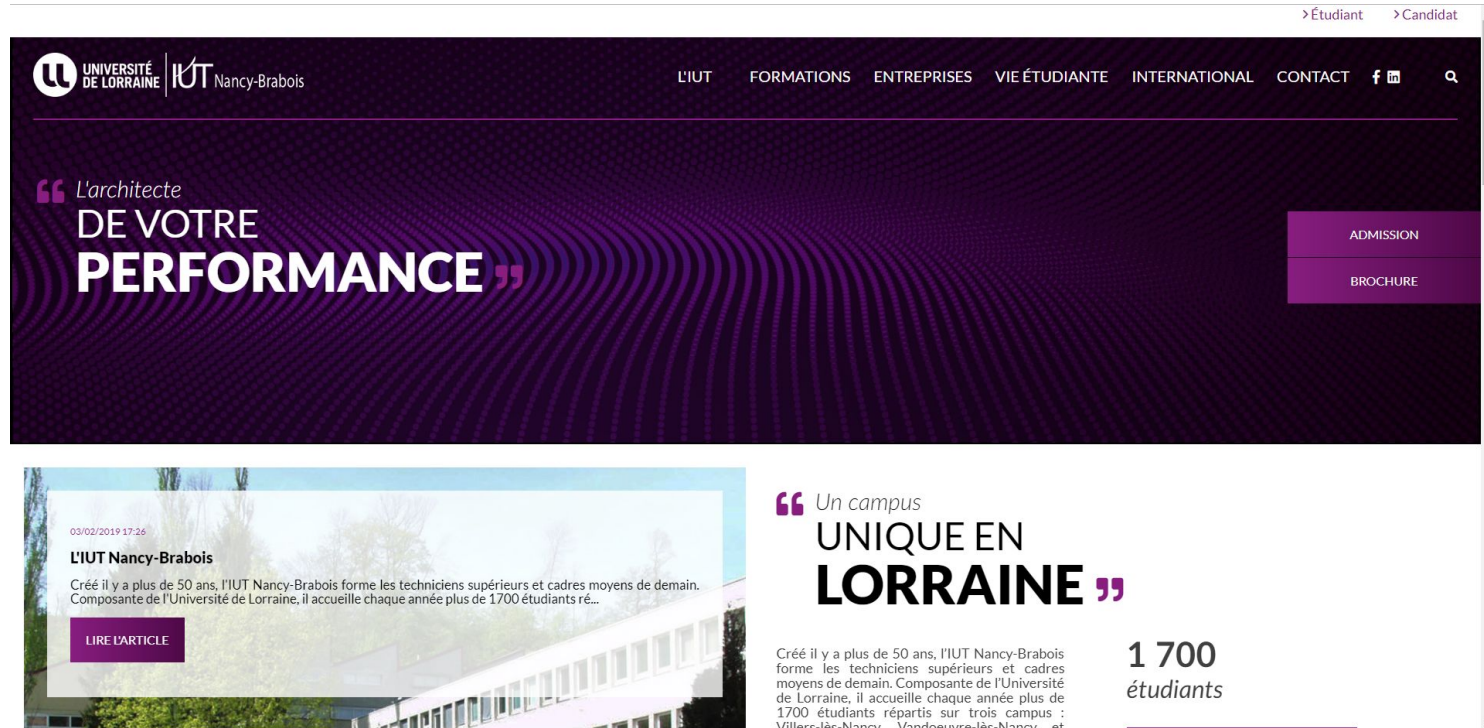

- website creation to the client with our cms
- Building site
  - Responsive
  - Modern
  - In the image of the customer
- The customer decides the module he want
- He then administers his own content site
- The graphic charter for each site is unique

# Some recent creation : Website for the city of Hayange

<https://ville-hayange.fr/>

# Some recent creation : Website for IUT of Nancy-Brabois <https://iutnb.univ-lorraine.fr>

# Personal main task in the company

- Learning Symfony
- Developing new module for the cms using symfony
- Language management for modules
  - Back-end development

## Some Modules I have developed:

- FAQ modules totally administrable for website in different language
- Information message module

### III. Others task within the company

- Customer relationship
- Front end / integration
- management of different website on-line and managing website hosting

# Conclusion

- work in the company totally in phase with our training
- Human aspect in the company and with the customers very interesting
- Sandwich course very interesting and can learn more thing during the year

Thanks you for your attention !

Any question ?
